VIKASH

Full Stack Developer
Student

PROFESSIONAL SUMMARY

Enthusiastic Computer Science student skilled in Java, JavaScript, AI Tools and React. Experienced in building web applications and solving programming challenges. Eager to apply knowledge to real-world projects, learn new technologies, and contribute to impactful software solutions.

WORK EXPERIENCE

Full Stack Development Internship | Jan 2024-May 2024
Upgrad Campus - Jalandhar

- Worked on full-stack development for the Real Estate Marketplace project under guidance of senior developers
- Developed and maintained web application features, implemented front-end components with React, and integrated backend APIs using Node.js
- Collaborated with team members to design, test, and deploy scalable solutions, ensuring smooth user experience and functionality

PROJECTS

CareerConnect | Canadian Based Job Application Portal

- Built a full-stack career platform connecting job seekers and employers
- Developed the frontend with React and backend APIs using Node.js and Express
- Integrated secure autopay for subscriptions and deployed the application
- Link: https://www.carrerconnect.com/

NeuroRevive360 | Health & Wellness Platform

- Developed a full-stack health and wellness platform focused on cognitive improvement and recovery support
- Built responsive UI using React and implemented backend services with Node.js and Express
- Designed secure database architecture and deployed the application for reliable performance
